

THE FINE PRINT

Edited by: **Anna Solomon**

Motifs are the new minimalism

That's right, we're saying 'no' to spartan surfaces and clinical colour schemes. Because, done right, prints can be super-chic, too. From Missoni's slightly seizure-inducing homeware to Orla Kiely's ever-popular 60s-style prints, we're seeing double, triple and quadruple this season. These loud cut-and-paste patterns are guaranteed to bring the energy.
