# BOHEMIAN RHAPSODY

Words: **Anna Solomon**

**FLORAL PRINT DRESS**

Gucci's Love Parade campaign ran with this summer's free-spirited trend, with garments angling to evoke a feeling of 'escapism'. This gauzy, flowy, floral number – featuring lace details, a flared hem and frill detailing around the neck – feels utterly romantic, while staying true to Alessandro Michele's signature maximalist aesthetic.

**BUCKLE EMBELLISHED BOOTS**

These supple boots come courtesy of footwear king Roger Vivier. The style, embellished with the label's signature buckle, is the perfect crossover between Western and Chelsea – both staples for the 21<sup>st</sup>-century *bohème*. Contrast with a floaty dress to live your Alexa-Chung-at-Coachella fantasy, or a pair of denim shorts for a pared-down look.

**LASER-CUT BELT**

Alaïa's clean style couldn't be further from boho's hippy-dippy drapings, but this intricate belt is giving us Age of Aquarius vibes. The scalloped edges and signature 'Vienne' pattern are reminiscent of gossamer lace, or the mandala-inspired patterns of bohemian garb.

**EDITH DAY BAG**

The Edith was the first luxury handbag that Chloé creative director Gabriela Hearst invested in – this was back in the Philo days. Now it's back: Hearst's reimagining stays true to the original 70s-inspired spirit with its slouchy shape and satchel detailing, updated with playful wool-blend fringing.

**NOORE SUNGLASSES**

With round frames, gradient lenses and scalloped arms, Chloé once again nods to a vintage aesthetic.

**NOEMI DRESS**

The Ritmo Collection was designed with artist Sebastian Marc Graham; his watercolour motifs are certainly vibrant, but what really gives us New Age vibes is the Noemi's dainty tassels, ruffle finish and tent-like silhouette. Throw on a fedora and you're good to go.

**PALAZZO JEANS**

Those chic Italians don't typically adhere to the structureless tenets of bohemian fashion, but a pair of 70s-style jeans transcends trends.

**ANNEKE PATCH SHIRT**

This diaphanous piece features blouson sleeves and a paisley print that wouldn't look out of place in the French countryside of the post-revolution, or in Greenwich Village during the Beat Generation era.
